----- Air Quality Department Complaint Form -----

Reference Number: 2015102920300739

Business Name: Hickman's Egg Ranch Arlington Complex
Violation Address: Salome Road and Ward Road
Major East/West: Salome Road
Major North/South: Ward Road
On the: SW Corner
City: ARLINGTON

Violation Description: The exact violation time is uncertain because I had my windows already closed due to the cooler night temperatures, however, at 3:55am I was awakened from a sound sleep by the smell of chicken manure seeping into my home through vents that are open to the underside of my mobile home. Because these vents could not be closed there was no way to keep the smell out. As a result I was not able to fall back into a comfortable sleep. My sinuses became inflamed and swelled to where I could only breathe through my mouth. The smell did not dissipate outside until near 7am which is when I was finally able to open my windows and use my fans to ventilate my home to remove the lingering stench. This is a clear violation of Hickman's permit which in parts A and B of the Specific Conditions number 3 states that smells, odors and gases, including manure, must be contained within the boundaries of the business property. I paraphrased the above permit to save writing time. Hickman has violated these parts of his permit many, many times, and needs to be shut down until he can adequately contain these obnoxious and dangerous gases. I will be leaving on a trip tomorrow so I need a complaint number for my records by the end of today.

Date: 10/29/2015 Time: 3:30
